Objective

Java Backend Developer with hands-on expertise in Core Java (8/11), Spring Boot, Hibernate/JPA, REST API development, and SQL databases (MySQL/PostgreSQL). Strong foundation in Object-Oriented Programming, Data Structures, Collections Framework, and Exception Handling, built through real-world full-stack projects and structured backend training. Comfortable writing clean, reusable code, debugging application issues, and collaborating with cross-functional teams, with a strong drive to design and deliver scalable, production-ready Java applications.

Technical Skills

- **Languages:** Java (8/11), JavaScript (ES6 basics), HTML, CSS, C
- **Frameworks & Libraries:** Spring Boot, Spring MVC (basics), Hibernate/JPA
- **Backend Concepts:** REST API Development, CRUD Operations, ORM, Microservices fundamentals (learning)
- **Databases:** MySQL, PostgreSQL, SQL (Joins, Queries, CRUD)
- **Tools & Platforms:** Git, GitHub, Maven, Postman
- **Core Concepts:** OOP, Data Structures & Algorithms (Basic), Collections Framework, Exception Handling

Projects

Placement Management Portal *Java, Spring Boot, Hibernate/JPA, MySQL, REST API, HTML, CSS, JavaScript, Git*

- Developed a full-stack placement management system for student registration, company onboarding, and job posting using Java, Spring Boot, MySQL, HTML, CSS, and JavaScript.
- Designed and implemented REST APIs in Spring Boot for CRUD operations on students, companies, and job postings with MySQL database integration.
- Built skill-based job matching logic to surface relevant postings based on student skill profiles (e.g., Java, Spring Boot).

Amazon Homepage Clone

HTML, CSS

- Built a responsive e-commerce-style homepage replicating core Amazon UI components (navigation bar, product grid, promotional banners) using semantic HTML and CSS Flexbox/Grid.

Education

Sri Indhu College of Engineering & Technology, Hyderabad Sep 2022 – July 2026
B.Tech – Computer Science & Information Technology CGPA: 7.90

Key Subjects: Data Structures & Algorithms, OOP, Database Management Systems

Mastermind's Junior College, Hyderabad Completed May 2022
Intermediate – MPC (Science) 83.2%

St. Savio High School, Maheshwaram Completed March 2020
Secondary School Certificate (SSC) CGPA: 10.0 / 10.0

Professional Training

TNS India Foundation – Java Backend Development Training Dec 2025 – Feb 2026
Hyderabad | tnsindiafoundation.org

- Trained in Core Java, OOP principles, Collections Framework, Exception Handling, and Spring Boot for backend development.
- Completed structured soft skills training: professional communication, interview readiness, and workplace professionalism.

Certifications

- Java Programming Certificate – Infosys Springboard
- Programming Foundations: Beyond the Fundamentals – LinkedIn Learning
- HTML & CSS Fundamentals – Great Learning

Soft Skills

Time Management & Task Prioritization | Team Collaboration & Communication | Problem Solving & Analytical Thinking
